

## Used Machine Details

Make:	Pemamo	<i>Stock Reference AS307</i>
Model:	MDP 120 E	Serial number: 370
Capacity:	1,5 –70,0mm diameter	
Description:	The Pemamo process is closer to lapping than honing, and this machine uses a superabrasive (diamond-like) plated tool that expands a micron at a time. This 'E' version is similar to a manual Speedhone or Sunnen MBB1660 machine where the operator strokes the workpiece back and forth over the tool removing a micron or so of stock at a time. It is exceedingly accurate and simplifies the honing process on jobs with minimal stock removal.	
Price:-	£3,700 (+VAT for UK sales)	
Terms:-	Pro-forma. FCA (loaded on your transport, ex-works Cheltenham)	
Tooling:-	New and used tooling is available at additional cost	
Training:-	Training offered from £450/day (plus expenses)
