

Used Machine Details

Make:	Pemamo	Stock Reference AS306
Model:	MDP 120 EH	Serial number: 370
Capacity:	1,5 –70,0mm diameter	
Description:	The Pemamo process is closer to lapping than honing, and this machine uses a superabrasive (diamond or diamond like) plated tool that expands a micron at a time. You place your work-piece on the tool and this EH version automatically strokes it over the tool which in turn expands as the process runs until final size is achieved. It is exceedingly accurate and simplifies the honing process on long running jobs.	
Price:-	£9,800 (+VAT for UK sales) <small>Please note that the Mercer Air Gauge shown in the photo is NOT included in this price</small>	
Terms:-	Pro-forma. FCA (loaded on your transport, ex-works Cheltenham)
